Cameron Park Fire Department Operations and Administration Report

- On May 23rd, 2024, B2715, E89, E88, E28, E86, E85, and M28 responded to a residential structure fire on Wentworth Road within station 89's first-due area. Upon arrival, B2715 reported a single-story house with a garage fire with advanced fire conditions in the attic. Shortly after, E89 arrived at the scene and deployed fire attack lines, while E88 captured a water supply from a nearby fire hydrant. Fire personnel on the scene executed an aggressive fire attack and successfully contained the fire to the garage and attic. No injuries were reported, and the cause of the fire was unintentional.

Cameron Park Fire Department Prevention Report

- On May 23rd, 24th, and 25th, CAL FIRE Ponderosa Fire Center Crews, in collaboration with EID and DOT, completed hydrant clearing and road access clearances throughout the community. Over the three days, the teams successfully reduced vegetation along residential streets, cleared fire hydrants, and ensured that vegetation impeding fire apparatus access was removed.
- Cameron Park Fire staff met with Interwest Consulting to discuss a transition plan for taking on state-mandated inspection services. Interwest has provided the district with a proposal for these services. Staff from both the Fire Department and the CSD are working together to ensure a smooth transition into inspecting occupancies throughout the district.
