Agenda

Members: Chair, Director Monique Scobey (MS), Vice-Chair, Ellie Wooten (EW)
Alternate: Director Sidney Bazett (SB)

Staff: General Manager André Pichly, Parks & Facilities Superintendent Mike Grassle,
Recreation Supervisor Kimberly Vickers

CALL TO ORDER

ROLL CALL

Public testimony will be received on each agenda item as it is called. Principal party on each side of an issue is allocated 10 minutes to speak, individual comments are limited to 3 minutes except with the consent of the Committee; individuals shall be allowed to speak on an item only once. Members of the audience are asked to volunteer their name before addressing the Committee. The Committee reserves the right to waive said rules by a majority vote.

APPROVAL OF AGENDA

APPROVAL OF CONFORMED AGENDAS

1. Conformed Agenda – Parks & Recreation Committee Meeting – June 6, 2022

OPEN FORUM

Members of the public may speak on any item not on the agenda that falls within the responsibilities of the Committee.

DEPARTMENT MATTERS

2. **Park Entry Sign Program update** (M. Grassle) Information only / Not an Action Item
3. **2022 Summer Spectacular final report** (K. Vickers) Information only / Not an Action Item
4. **District's Response to Drought** (M. Grassle) Information only / Not an Action Item
5. **Staff Oral & Written Updates**
 - a. Recreation Report (K. Vickers) Information only / Not an Action Item
 - b. Parks & Facilities Report (M. Grassle) Information only / Not an Action Item
6. **Items for September & Future Committee Agendas**
 - a. Ordinance 2001-01, Section 5 – Conduct in Parks: staff review and return to PRC for review and discussion (Scobey)
 - b. Memorial Bench Discussion (Scobey)
 - c. Eastwood Park Improvements (Scobey)
 - d. Website usage and registration software (Scobey)
7. **Items to take to the Board of Directors**

Recreation Supervisor Kimberly Vickers

CALL TO ORDER: 6:35 PM

ROLL CALL: Present: Director Scobey, Director Bazett (alternate); absent: Director Wooten

Public testimony will be received on each agenda item as it is called. Principal party on each side of an issue is allocated 10 minutes to speak, individual comments are limited to 3 minutes except with the consent of the Committee; individuals shall be allowed to speak on an item only once. Members of the audience are asked to volunteer their name before addressing the Committee. The Committee reserves the right to waive said rules by a majority vote.

APPROVAL OF AGENDA: Motion to approve the Agenda by Bazett; 2nd by Scobey. Approved.

APPROVAL OF CONFORMED AGENDAS: Motion to approve Conformed Agendas by Bazett; 2nd by Scobey. Approved.

1. Conformed Agenda – Parks & Recreation Committee Meeting – May 2, 2022
2. Conformed Agenda – Parks & Recreation Special Committee Meeting – May 4, 2022

OPEN FORUM

Members of the public may speak on any item not on the agenda that falls within the responsibilities of the Committee.

DEPARTMENT MATTERS

3. **Proposed amendment to amended Ordinance No. 2001-01, Section 5 – Conduct in Parks: consider and endorse** (A. Pichly, M. Grassle) - regarding the use of public parks for commercial use without the consent or approval of the CSD.
Committee asked that the entire ordinance be reviewed by staff, brought up to modern standards, and brought back to a future Parks and Recreation Committee meeting for review and discussion.
4. **Cameron Park Lake Water Quality Report from Solitude Lake Management** (M. Grassle)
Scobey: feels it's important to come back with a plan for aeration, including pros/cons and cost lists.
5. **Staff Oral & Written Updates**
 - a. Recreation Report (K. Vickers)
 - b. Parks & Facilities Report (M. Grassle)
6. **Items for July & Future Committee Agendas**
 - a. Park entry sign program update (Scobey)
 - b. Memorial Bench Discussion (Scobey)
 - c. Eastwood Park Improvements (Scobey)
 - d. Website usage and registration software (Scobey)
7. **Items to take to the Board of Directors:** None

AGENDA ITEM #2: **PARK SIGN PROGRAM**

RECOMMENDED ACTION: **RECEIVE AND FILE**

Introduction

The Parks and Recreation Committee first discussed implementing a park sign program back in March of 2019. The committee was presented several examples of park signs from different parks and recreation districts. Page 2 of this report illustrates the style of park entry sign they felt would fit best in Cameron Park. The committee spoke to Cameron Park Rotary and the Community Foundation to see if there was any interest in helping to fund new entry way signs. To my knowledge both Rotary and the Foundation were not interested in the idea of helping fund new park entry signs.

Discussion

The committee will need to discuss funding, design, and installation location for new park entry signs. The district plans to inventory all district signage to make sure ordinances, rules and regulations are stated clearly at each park location.

WILL BE BILLED EXTRA AT T&M *				TOTAL	\$ 3,915.00

One year parts and labor warranty. All signs and components to be listed with and will bare the mark of Underwriters Laboratories (if applicable). Service wires of suitable capacity shall be brought within five (5) unobstructed feet of display (if applicable). Any alteration deviation from the above specifications involving extra cost or material or labor will only be executed upon written order for same, and will become an extra charge over the sum mentioned in this contract. All agreements must be made in writing. All signage to remain the property of Western Sign Co. until final payment. Payment is due upon receipt of invoice. Finance charges of 2% will be attached after 30 days, on a monthly basis, on all unpaid balances.

NOTICE TO PROPERTY OWNER If bills are not paid in full for the labor, services, equipment, or materials furnished or to be furnished, a mechanic's lien leading to the loss, through court foreclosure proceedings, of all or part of your property being so improved may be placed against the property even though you have paid your contractor in full. You may wish to protect yourself against this consequence by (1) requiring your contractor to furnish a signed release by the person or firm giving you this notice before making payment to your contractor, or (2) any other method or device that is appropriate under the circumstances. Other than residential homeowners of dwellings containing fewer than five units, private project owners must notify the original contractor and any lien claimant who has provided the owner with a preliminary 20-day lien notice in accordance with Section 3097 of the Civil Code that a notice of completion or notice of cessation has been recorded within 10 days of its recordation. Notice shall be by registered mail, certified mail, or first-class mail, evidenced by a certificate of mailing. Failure to notify will extend the deadlines to record a lien.

This contract is accepted at Western Sign Company principle place of business namely Diamond Springs, CA., within the venue of El Dorado County.

Acceptance of proposal - The above prices, specifications and conditions are satisfactory and hereby accepted. You are authorized to do the work as specified. Payment will be made as outlined above.

NOTE: This proposal may be withdrawn if not accepted within 10 days of date posted above.

Event Report 2022 – Summer Spectacular

	<u>2019</u>	<u>2022</u>
	Actual	Actual
Participants	3400	3340
Expenditures	\$56350.93	\$50299.20
Sponsorships	\$15550	\$19750
Wristbands	\$20475	\$31710
Alcohol	\$4871.33	\$2000
Total Revenue	\$48749.83	\$57105*
Net	\$7601.10	\$6805.80

*Included estimate of projected food vendor revenue as of 7/22, and not including shuttle reimbursement

I. DATA:

Date: June 25, 2022
Time: 3:30pm-10:00pm
Location: Cameron Park Lake
Fee: \$10 for ages 4+
3&u Free

II. PROGRAM CONTENT:

Event activities

Event activities included 2 live bands, fun zone with 5 inflatables, 6 food trucks, 1 drink stand, Beer Garden with beer vendor and wine & margarita vendor, and fireworks show.

Planning and Marketing

Planning started in March, and was completed by a committee of 5 people, with other staff assisting as needed in the process. Weekly meetings were had, as well as meetings with vendors and partners.

For marketing, we posted weekly on social media including a paid ad two weeks before, had information on the website and sent email blasts to subscribers, flyers at kiosk and other bulletin board areas, banners at community center, on board facing freeway, Paul J. Ryan Park, the lake, and Dave west.

III. COMMENTS & SUGGESTIONS:

- Starting later in the day was a cost savings and fit with the attendance pattern of the event.
- Fun zone was enjoyed by many, and appreciated its inclusion in wristband price
- Having BBQ with Fire for volunteers and staff was well coordinated and appreciated
- Suggest doing away with beer garden fencing
- Closing lake Friday-Sunday was helpful for set-up
- Having specific shirts for event staff was great addition
- 20-minute fireworks show seemed long enough and enjoyable
- Learned a lot and have ways to decrease some expenditures next year
- Will make seeking volunteers a higher priority next year
- Seek options for easy day of sales due to website crashing

AGENDA ITEM #4: DISTRICT'S RESPONSE TO THE DROUGHT

RECOMMENDED ACTION: RECEIVE AND FILE

Introduction

On June 28, 2022, El Dorado Irrigation District's (EID) Board of Directors unanimously approved asking its customers to reduce water by 15%. This is in response to the ongoing drought conditions in Northern California. The plan is for the district to look at each EID account and make the necessary changes to meet or exceed the voluntary reduction.

Plan

The district currently has 8 developed parks that utilize the Hunter Hydrowise Irrigation software to control irrigation water. The system uses a Verizon Hot Spot to connect remotely to a weather station that is located on the roof of the maintenance shop. The weather station calculates temperature, wind, solar radiation, humidity, and rain fall to determine how much water to apply to the landscape. District staff set the irrigation to run at the worse case scenario while the weather station lowers the amount of water based on the 5 factors above.

In addition to the Hydrowise system saving water, the district is setting all unnecessary landscape to irrigate at 85% of it's optimal level. Staff will be monitoring the districts to the best of their ability to ensure water is not being wasted through broken sprinklers/water lines, sprinklers out of adjustment, and run off/drift. Recreational turf does not fall under the EID voluntary restriction guidelines. The district will conserve water on recreational turf to the best of our ability while keep the lawn usable for our community.

Discussion

If restrictions worsen, we may need to discuss reducing the amount of turf grass the district maintains. This may lead to eliminating or browning out turf grass. The district could also look at eliminating shrubbery in areas that will not decrease the existing aesthetics of the parks or LLAD'S.

Attachment

4A- List of district-maintained turf grass that is not used for recreational purposes.

4B – Letter from El Dorado Irrigation District

Below are my recommendations for non-essential landscape that could either be eliminated or have the irrigation cut back to reduce water consumption. Removing turf grass would also cut down on agricultural and labor costs as well

1. There are two sections of turf grass at **Fire Station 89** that could be removed. The district could replace the existing turf grass with mulch.
2. **Paul J. Ryan** has a large area of turf grass near the front of the park that could be removed. Converting the irrigation to a drip system and installing mulch would keep the park looking maintained and well kept.
3. **Bar J A LLAD** has a small section of turf grass that could be removed. Adding additional shrubs and mulch would complement the area. Would need to convert the sprinklers to a drip system to irrigation new shrubs.
4. **Cameron Park Lake** has several areas of declining turf grass. Several of the sprinkler heads are watering the dirt around the gazebo and concession stand. Watering the dirt keeps the dust down which is necessary with all the foot traffic at the lake. Reshaping the landscape to install mulch and eliminate irrigation is recommended. Installing mulch would keep all the dust down from the foot traffic.
5. **Bar J B LLAD** has several sections of landscape where the shrubs are in decline. We could look at removing the shrubs and eliminating the irrigation. Bar J B is also operating on a negative budget. Reducing the cost of irrigation would be beneficial.
6. **Dave West Park** has one acre of turf grass located outside of the baseball field. That section of grass could be removed which would cut the lawn irrigation in half. Sprinkler heads would need to be relocated to keep the baseball field grass thriving. Adding large trees with mulch would be a nice look if the turf grass were removed.

CAMERON PARK CSD
ATTN FINANCE DEPT
2502 COUNTRY CLUB DR
CAMERON PARK, CA 95682

Subject: Irrigation Water Use Prohibited on Non-Functional Turf
Service Address: 2502 COUNTRY CLUB DR CAMERON PARK
Account #: 139753-001

Dear Customer,

El Dorado Irrigation District (EID) and its service area has been under a Stage 1 Water Alert since June 2021. This stage calls for all customers to voluntarily reduce water use by up to 15 percent compared to 2020 levels.

In light of continuing statewide drought conditions, on March 28, 2022 Governor Newsom issued an executive order directing the State Water Resources Control Board (Water Board) to consider adopting emergency regulations to increase water conservation.

On May 24, 2022, the Water Board adopted a drought related emergency water conservation regulation. The regulation includes a prohibition against the irrigation of non-functional turf with potable water in the commercial, industrial, and institutional sector. This regulation also applies to homeowner associations, common interest developments, community service organizations, and other similar entities. It does not include residential customers.

You are receiving this letter as an EID commercial water customer that may have non-functional turf. Non-functional turf means turf that is solely ornamental and not regularly used for human recreational purposes or for civic or community events.

Nonfunctional turf does not include sports fields and areas that are regularly used for human recreational purposes or for civic or community events.

Notwithstanding the above, the regulation does include some exceptions:

- The use of water is not prohibited by the regulation to the extent necessary to ensure the health of trees and other perennial non-turf plantings or to the extent necessary to address an immediate health and safety need.

- The regulation states that an urban water supplier may approve a request for continued irrigation of non-functional turf where the user certifies that the turf is a low water use plant with a plant factor of 0.3 or less, and demonstrates the actual use is less than 40 percent of reference evapotranspiration.
- The regulation does not apply to turf that is irrigated with recycled water.

EID also has a water waste prohibition (Administrative Regulation 1041) that remains in effect during the current drought. AR 1041.1 defines water waste as, among other things, “Irrigating ornamental turf with potable water on public street medians.” This prohibition is in place to comply with existing state law prohibiting such irrigation.

Thank you for cooperating with EID to meet state requirements to reduce water use in light of California’s ongoing drought emergency. For more information regarding the impacts of the drought, learn ways to conserve water and save trees during a drought, and to read the emergency regulation in its entirety, please visit our website at www.eid.org/drought.

If you have questions about this matter, contact us at 530-642-4000 or email officeofwaterefficiency@eid.org.

Sincerely,

Office of Water Efficiency

AGENDA ITEM #5A: RECREATION REPORT

RECOMMENDED ACTION: RECEIVE AND FILE

Summer is nearly over for programs here at the CSD. Summer Spectacular was an amazing event, and a huge success! We are working on fall staffing, programs, and special events.

We started a TikTok social media account, and our first video is an introduction to the CSD, the front office staff, and our facilities. It is being viewed and shared, so success! We will be adding meet the staff videos and program highlight videos as well. Check us out by searching @cameronparkcsd on TikTok. We also utilize Instagram and Facebook for social media.

We had such fun at camp making kinetic sand and having a color war! Camp sessions remain full, and participants are excited for the new theme each week!

Recreation swim continues 7 days a week. While we see less participants when we experience cooler weather or holidays, the slide is always a fan favorite! We are excited to be able to extend weekend Recreation swim through August 27, 2022.

Recreation Programming:

Below is a quick summary on everything that has been happening:

- *Cameron Park Lake Events & Kiosk Operations*
 - Kiosk remains open daily and will continue through the fall based on staff availability, daylight, and weather/air quality

- *Camp CP*
 - Summer camp is in its last sessions
 - Camp sessions remain full

- Had Lego camp special guest, basketball camp day, taekwondo demonstration, and cooking special guests
- *Aquatics:*
 - We continue to have lap swim, deep water exercise, AquaBody strong, recreation swim and both swim teams at the pool
 - Swim lesson sessions continue to fill to capacity
 - We will have less programs in the coming weeks with seasons ending, breaks, and back-to-school
 - Dive-in movie was a great success with approximately 100 participants
- *Sports:*
 - We had a successful basketball camp at the end of June run by Clark Woods
 - Sky Hawks has run their sports programs this year
 - Prospector Soccer has begun their field use
 - Ponderosa Little league will begin their field use this month as well
- *Community Center Programs*
 - Senior Social Hour continues with participants on Tuesday and Thursday
 - Modified Zumba continues
 - Gold Nugget Quilters continue to meet on Wednesdays
 - Congregate meals returned to in-person five days a week, with minimal participation for seated lunch
 - Cooking with Kids class had another successful session
 - Ballet classes returned to the CSD and is doing well
- *Upcoming*
 - Movie in the Park- July 22nd (Christa)
 - Kid's Boxcar Movie- August 4th (CSD)
 - CP Family Fest- August 12th (Rasmussen)
 - Elvis Concert- August 25th (CSD)
 - Community Appreciation event- September 10th (Lake)

Communications:

- Continue monthly e-newsletter
- Active engagement on Facebook, Instagram, and Nextdoor, and TikTok
 - Instagram Insights (last 30 days)
 - Accounts engaged- 67% increase June, 127% increase in July
 - Followers- increased by 1.8% in June, increased 2% in July
 - Facebook
 - Post engagement- increased 67% in June, increased 49% in July
 - Followers- Gained 56 in June, gained 18 followers in July
- Updating district website-
 - Page views: 70,719 (increased 22,331), 36,667 so far in July
 - 2,693 subscribers to website (increase of 63 subscribers)
 - 2,370 subscribers to E-newsletter (increase of 30 subscribers)

*Cameron Park
Community Services District*

Agenda Transmittal

DATE: August 1, 2022

FROM: Michael Grassle, Parks and Facilities Superintendent

AGENDA ITEM #5B: **PARKS & FACILITIES DEPARTMENT REPORT**

RECOMMENDED ACTION: **RECEIVE AND FILE**

General Information

- The district has spent a lot of time repairing landscape maintenance equipment. Between various contractors and in house skilled staff we have everything up and running.
- The Parks and Facilities department's focus this past month was Summer Spectacular. This event takes a lot of planning and execution from the department to be successful.
- Staff, along with El Dorado Weed Control, have started to chemically treat poison oak and other unwanted woody vegetation on district property.
- Staff have begun applying summertime fertilizer to all the district turf grass. This task should be completed by mid-August.

Cameron Park Lake

- On Wednesday July 20th, the department sprayed the vegetation along the lake surface. The lake should be all cleared up within 5-7 days of application.
- Staff flail mowed the fairways along the disc golf course. Staff also spread 30-yards of wood chips around the basket of Hole 1. This was in preparation to the Summer Spectacular.
- MR. Security repaired the DVR that operations the security camera's. The old DVR was only showing live feed for four of the nine camera's.

- El Dorado Weed Control sprayed the remaining vegetation along the spill way on Thursday July 21st. This will prevent any regrowth for the next 6-9 months.
- The district signed a contract with Solution Lake Management to evaluate the quality of the lake water twice per year. Also included in the contract will be a water evaluation this fall, looking for bacteria in the water that could be causing swimmer's itch.
- The Department of Water Resources (DWR) will be on-site Thursday July 28th to inspect the lake dam. Improvements were made this past year such as, removing vegetation along the lake outlet and spillway. There is nothing I am aware of that would cause DWR to express any concern over the condition of the Cameron Park Lake Dam.

Parks and LLADs

- Santillan Landscaping was out to prune the hedges along Meder Rd. on Tuesday July 5th and 6th.
- Staff sprayed out the clover and dandelion that was infesting the turf grass at Eastwood Park. This is a maintenance practice done at Eastwood Park yearly.
- Staff installed three different battery powered irrigation timers at Rasmussen Park. A long stretch of irrigation wire has lost connection to the Wi-Fi controller. Staff will need to trench in new irrigation wire this winter to get the effected valves back on the Wi-Fi controller.
- Heartwood Tree Company removed two dead cedar trees at Bar J B LLAD. They also grinded down all of the above ground tree stumps at Paul J. Ryan Park.
- The district had a walkthrough with Blue Mountain Communities on Thursday July 28th. The district will be discussing taking ownership of the Silver Springs LLAD.

Community Center

- The pump that feeds chlorine into the swimming pool was replaced. The old pump quit working. The district is having National Aquatics rebuild two newer chemical pumps which will be used as back-up chemical pumps moving forward. The two older pumps are being repurposed from the swimming lagoon.

- Staff will be capping off all unnecessary sprinkler heads around campus. This is one of several water saving measures the district is implementing.
- The bracket that supports the track on the partition system in the Assembly Hall have worn out. The partition in the main hall will no long close properly. The original manufacturer is no longer making parts for the unit installed at the Community Center. Staff are investigating other alternatives and repairs. The partitions are currently secured in the open position.
- Department staff are revamping the process on how the public rents the Community Center for special events. Pre and post event checklists along with walkthroughs prior to events will become part of the rental process.

Cal Fire / Growlersburg

- Growlersberg spent three crew days assisting the district in preparing and cleaning after the Summer Spectacular. They are a huge help in making this event a success.
- Growlersberg spent one crew day cleaning the vegetation out of the spillway at Cameron Park Lake. This was in preparation of our yearly dam inspection performed by the Department of Water Resource.
- Growlersberg spent one crew day cleaning all the vegetation inside the Lagoon area at Cameron Park Lake.
- Growlersberg spent one crew day clearing the vegetation along the retention ponds at Dave West Park.
