

# WILDFIRE IS COMING. ARE YOU READY? BE PREPARED.

Learn what to do **before** wildfire strikes.

- Where to go
- How to get there
- What to take

Visit [ReadyForWildfire.org](https://www.ReadyForWildfire.org)

## Maintaining Proper Defensible Space

- Remove all dead plants, grasses, weeds, and dried leaves.
- Remove all tree branches at least 6 feet from the ground.
- Create vertical and horizontal spacing between shrubs and trees.
- Keep tree branches 10 feet away from your chimney.
- Remove vegetation and items that can catch fire from around all structures.

## Fire Resistant Landscaping

Use rock, mulch, flowerbeds, and gardens as ground cover for bare spaces and as effective fire breaks.

Choose fire-retardant plant species that resist ignition such as:

- French Lavender
- Ornamental Strawberry
- Red Monkey Flower
- Yellow Ice Plant
- California Fuchsia
- Coreopsis
- California Lilac
- California Red Bud
- Sage

## Online Burn Permits

Before you burn, ensure it's a permissive burn day by contacting the local air quality district.
