Meeting has been cancelled

(See attached Fire Department
report for updates)

Agenda Transmittal

DATE: August 4, 2020

FROM: Jill Ritzman, General Manager

RECOMMENDED ACTION: RECEIVE AND FILE

STAFF UPDATE REGARDING FIRE DEPARTMENT

Staff is working on two items: the Fire Training Tower and the environmental determination for the CA Climate Investment Grant projects, which will be coming to the Fire Committee soon. The following is an update regarding those two projects:

Training Tower

Staff continue to seek a fee waiver for necessary County permits related to the construction of the Fire Training Tower. In addition, staff is seeking a specific scope of work and project costs from the contractor for the construction of base work and erecting the Tower. Staff is hopeful to have this information for the Committee in September, so that the project can proceed for Board approval and construction can begin.

Environmental Permit for CA Climate Investment Grant funded Fuel Reduction Projects

Staff is seeking an environmental permit, under the California Environmental Quality Act (CEQA), for additional fuel reduction projects funded by the California Climate Investment Grant. These projects are on District and other public properties. The District contracted with El Dorado Resource Conservation District to perform the environmental review and provide documentation. Their work is concluded. The next step is for the District to contact the local tribes for input. Staff expects to have the Fire Committee review the environmental document, which at this time is a Categorical Exemption, in September.
