Incident Activity

On August 17th, Engine 289 responded from Station 88 to a reported vehicle fire at the intersection of Green Valley Road and Cambridge Road. Upon arrival, personnel located a single vehicle with a fully involved engine compartment. Engine 289 initiated fire attack and quickly contained the fire to the vehicle, preventing extension to nearby exposures or vegetation.

On September 14th, Engines 89 and 388, along with a CAL FIRE - AEU vegetation fire response, responded to a reported vegetation fire along eastbound Highway 50, just east of Cameron Park Drive. Upon arrival, Engine 89 initiated fire attack on the western flank while Engine 388 attacked the eastern flank. Through coordinated efforts between Cameron Park Fire personnel, El Dorado County Fire, Ponderosa Fire crews, and CAL FIRE – AEU resources, the fire was contained to approximately one acre. Crews remained on scene conducting mop-up operations and ensuring the fire was fully extinguished. No structures or private property were damaged.

On September 23rd, Engines 89 and 388, along with CAL FIRE - AEU, El Dorado Hills Fire Department and El Dorado County Fire Protection District responded to a report of a vehicle into a commercial structure at 3300 Coach Lane in the Burke's Junction complex. Upon arrival, crews found a vehicle that had entered an occupied hair salon, causing significant damage to the storefront and interior. An occupant of the business sustained minor to moderate injuries and was transported to Marshall Hospital, while the driver was uninjured. Following patient care, fire personnel coordinated with CHP, property management, the El Dorado County Building Department, and the towing company to safely remove the vehicle and assess the building.

Community Events

On September 26, Cameron Park Fire Department personnel participated in the annual CHP-sponsored Cops, Props and Rodders community event. Cameron Park was represented by Engines 89, 389, and 388, along with a CAL FIRE S-70i FIREHAWK helicopter, bulldozer, and fire engine. The event was well attended and provided an excellent opportunity for the public to interact with fire personnel, view emergency equipment, and learn more about local fire and emergency services. Overall, the event was a great success and provided a positive opportunity for community engagement.

Department Updates

The Department recently hired a new Engineer/Paramedic who is currently attending the fire academy. The new hire is expected to graduate in mid-November and will be placed online shortly thereafter. This addition will help support department staffing and operational needs.

Wildfire Mitigation Coordinator (WMC) Monthly Report

September 2026

Unimproved Lots (Vacant Lots) – Preparation for next year starts as processes are reviewed and adjusted and documents are updated and changed to improve the program.

CSD Parcels – Coordination is underway with maintenance to complete wildfire mitigation practices on properties; a better process is being developed to keep track of what needs to be completed.

Maps – Working on updating maps for the CSD, providing some new detailed styled maps for each park to build an interactive map for the public to use to showcase different amenities the CSD has to offer.

Zone Zero – No new updates regarding this as the defensible space working group for the county has not met in the last month due to scheduling conflicts from others within the group so the update remains as follows: The Board of Forestry has recently finalized the regulations on zone zero which will affect areas, Moderate, High, and Very High Severity Zones, in the SRA (State Responsibility Area) and only the Very High Severity Zones in the LRA (Local Responsibility Area). View the Press release here:

<https://mailchi.mp/ca33ae5bd6ed/board-of-forestry-and-fire-protection-names-new-executive-officer-18173901?e=159564dcf0>

Educational Signs – Education Wildfire Prevention yard signs have been made and presented to the board and some adjustments will be made based of feedback from them and the public.

EDCAR – Spoke at an EDCAR event at the Country Club after a previous defensible space inspector speaker could not make it. Discussed the new California update: Zone Zero. Covered questions regarding Defensible Space Real Estate Inspections.
